

# KRING invites you to an exiting ERFA gathering

Thursday 29/3 - 2007 from 15.00-19.00

## Meet one of Europe's leading sourcing experts

**It's time for the next round of our ERFA group, so mark your calendars. The first mini-conference last fall was an interesting start, and we're looking forward to building on the concept together with all of you.**

### Programme:

#### Welcome and kickoff

After a short welcome, we'll kick off with a view from KRING on some of the challenges and opportunities KRING sees now and in the coming times for the sourcing market.

#### Specific case

After this, GNO will present their experience with offshore tests and the building of testing teams in general.

#### Peter Schumacher, CEO

Last but not least we are happy and proud to present Peter Schumacher, CEO and founder of Value Leadership Group.

In addition to providing a focus on the situation regarding outsourcing in Europe, Peter Schumacher will present some of the European companies with successful sourcing stories, and which strategies they employ.

Mr Schumacher will also discuss the typical expectations and reservations companies have concerning outsourcing, and show how these change over time with experience.

### Refreshments:

Coffee, tea, soft drinks and a light buffet will be available to replenish the energies of both mind and body.

### Time and place:

Time: 29.03.07 kl. 15.00 – 19.00  
Place: IT Universitetet, Auditorium 2  
Rued Langgaards Vej 7  
2300 København S

We hope you'll mark your calendars straight away, and look forward to a large gathering – the more participants, the better the discussion and dialogue. If you have colleagues you think should attend, these are, of course, more than welcome.

### Registration:

Send to: Thomas Watts: thw@kring.com with name, job title and email of participants.

If you are unable to come, we'd like to hear from you as well.

See you soon...
